# AIKN COURTSIDE

Courtside seating for the AIKN basketball court · ALU Courtside Seating Design Challenge · Design board

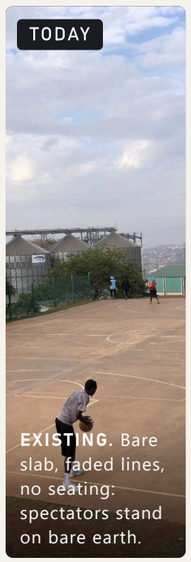

**NTARE GAMA ALLAN**

Individual entry · Volleyball club

African Leadership University · October 2026

**AIKN COURTSIDE, DAY.** Four stepped concrete stands (160 seats) frame the renovated court; concrete end walls stop balls and carry the mural palette.

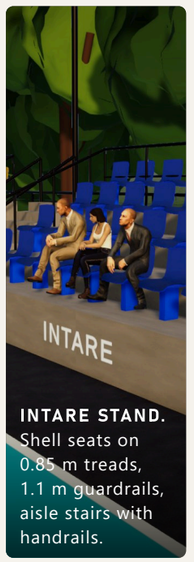

**EXISTING.** Bare slab, faded lines, no seating: spectators stand on bare earth.

**END WALLS.** Carved portraits of Fred Swaniker and H.E. Paul Kagame with blackletter quotes.

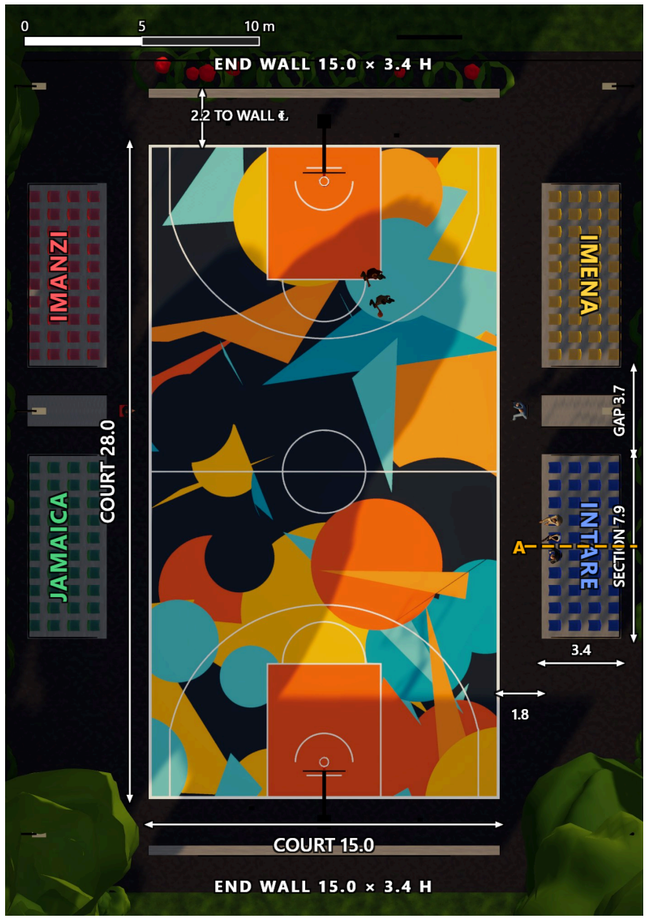

**ALU SIGN.** Recessed LED "ALU / AIKN COURT" on the outside of each wall.

**INTARE STAND.** Shell seats on 0.85 m treads, 1.1 m guardrails, aisle stairs with handrails.

## SITE PLAN

dimensions in metres

**160**
fixed seats
4 sections × 4 rows × 10

**+4**
level wheelchair bays
with companion space

**2.0 m**
top tier height
1.1 m guardrail above

**6**
LED floodlights
7.5 m poles, ≈200 lux

## SECTIONS

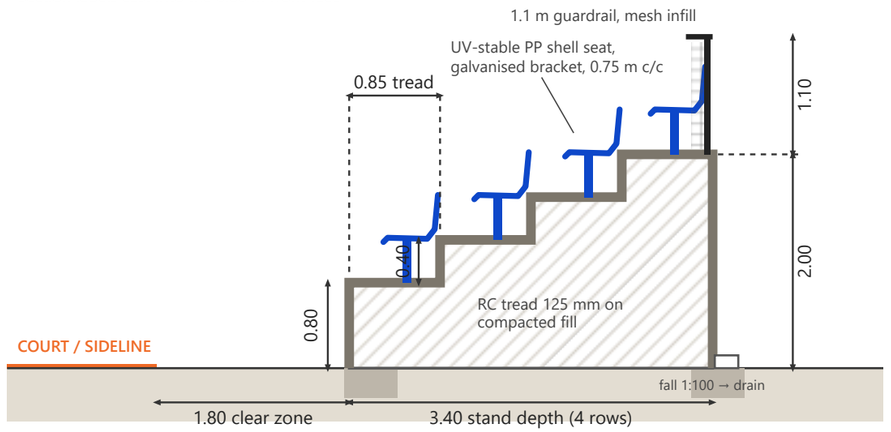

seat colour by name

- **Imanzi** · left, far · red
- **Imena** · right, far · yellow
- **Jamaica** · left, near · green
- **Intare** · right, near · blue

## SECTION A–A

through the Intare stand · metres

**Section labels cast into the 0.80 m front face**

## KEY DESIGN CONSIDERATIONS

- **Safety:** 0.40 m risers and 0.85 m treads; aisle stairs at 0.20 m rise and 0.34 m going, with handrails on both sides; 1.1 m guardrails with mesh infill wherever the drop exceeds 0.6 m; slip-resistant treads with yellow contrast nosings; stands kept 1.8 m clear of the sidelines.
- **Durability:** reinforced concrete with 30 mm cover; hot-dip galvanised steel; UV-stabilised seats that are bolted individually, so each can be replaced on its own; anti-graffiti sealer on the walls.
- **Sustainability:** the existing slab is reused, not demolished; tiers are made of compacted fill inside block walls, which uses less cement; recycled-content seats; local Kigali labour and fabricators; LED lighting on timers; rainwater drains to planted beds.

**Materials:** reinforced-concrete stepped tiers on block perimeter walls · UV-stabilised polypropylene shell seats · hot-dip galvanised steel rails · slip-resistant treads with contrast nosings · LED floodlighting · carved render relief art · recessed IP65 LED signage · acrylic court coating.
